# CREATIONS

## Preface

This teaching gives total explanation about the way the world (natural world) has been created, and also an insight into the Heavens (Spiritual world). It gives a broad structure of both the creations that exist in both the worlds and also the purpose behind the vast variety of creations.

This teaching will also bring you to the hidden truths of many things that were yet not known to man in dept. It also touches on the things set for us at the end of our journey of this natural life.

It is not just information to be added for your knowledge, but given to you so as to help you discern the things of these worlds. The things that had come, that are there and the things that will come, so that you may walk the path that leads to God and may not stumble.

It is like driving a car on the road you need to do all three things to drive perfectly (to be in control of your driving).

1. Know when and how to change gears, accelerating, stirring (learn faith, love, sacrifice, service etc...).
2. Know the rules of the road and follow them (know and keep God's Commandments and Statutes etc...) .
3. Know the destination you are going (know the purpose of God in your life, the mission, the calling in your life etc... which this teaching and Church – The Body of Christ will give you).

If you do not do all the three then

1. You will be driving with lots of noise, rattling, jerks, having break downs etc...
2. You may break lanes and even go on the opposite road and have an accident etc...
3. You may drive in circles, drive very slow, without knowing where you are headed or how far is your destination you may even get de-motivated on the way and stop.
